

Don't be Emo, be Emollient

PALMESTER 1910

Cetyl Ethylhexanoate

Medium spreading emollient that softens, soothes and lubricates the skin, giving a long lasting silky and velvety feel.

PALMESTER 1900

Glycerol Tri 2-Ethylhexanoate

Imparts dry lubricity, gives your skin an elegant light non-greasy after-feel and offers excellent stability in high pH formulations.

PALMESTER 9000

Isopropyl Isostearate

Emollient that exhibits lubricity without the oiliness and provides a light and smooth skin feel. It imparts good spreadability and slip in colour cosmetic applications.

PALMESTER 9200

Pentaerythrityl Tetraisostearate

Luxurious moisturiser with long-lasting cushiony after-feel. Exhibits excellent low-temperature properties and good oxidative stability. Provides high skin gloss and suitable to be used in long-lasting protective emulsions.
